

PORTABLE COMPUTER COMMUNICATIONS MADE EASY

Krown's New PORTALINK

THE EASY SOLUTION TO FULL FUNCTION COMPUTER ACCESS WITH TRUE PORTABILITY

Anyone Can Use It

Full sized typewriter style keyboard with simple function keys.

Take It Anywhere

Works from internal re-chargeable battery or 117 volt AC adapter (both included).

Prints Messages

The Portalink has an integral 40 column printer which provides hard copy of incoming and outgoing messages.

Easy Read Display

Large blue vacuum 40 character scrolling display can be read in any light at any angle.

Off Line Message Entry

Word processing/off line editing with 4k send/receive buffer. Visual character counter for buffer.

Easy Log-On

Automatic dialing of preprogrammed number and log-on buffers for simplicity in handshaking.

Leave It Unattended

Will automatically answer with built-in originate/answer modem.

Install It Anywhere

RJ11 connector means that you can install it anywhere in seconds.

Inexpensive

The Portalink terminal is priced at \$779.00.

Reliable

Thousands of similar KROWN terminals are in use around the world everyday. KROWN has been supplying AT&T and many other major telephone companies for years.

Fast Service

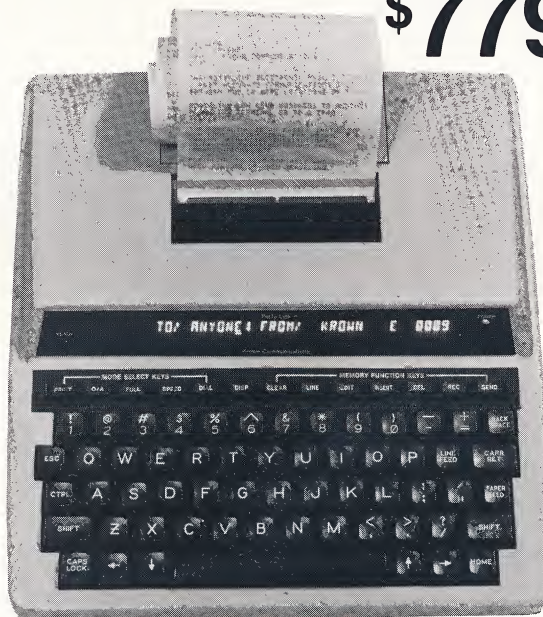

Should service ever be required, KROWN has a fully equipped and staffed service department ready to meet your needs.

Special Requirements?

If you have unusual or special applications, KROWN has an engineering and development staff that will meet your needs.
